THE NEW LODGE, REIMAGINED

See the vision. Imagine your day.

Venue renderings and flexible celebration layouts for the new Lodge at Garland Mountain.

ACCURATE DESIGN RENDERING

A clear picture of what is taking shape.

Because the new Lodge is under construction, the images in this guide are design renderings, not photographs. They are intended to accurately depict the planned spaces and possible wedding configurations. Final finishes, furnishings, landscaping and layouts may vary.

Gather beautifully, indoors.

Warm wood, natural stone and firelight create an inviting dining room for dinner, toasts and unhurried conversation - with broad doors opening the celebration toward the mountain setting.

ACCURATE DESIGN RENDERING

DINING ROOM

An elevated interior setting for dining, connection and celebration.

Let the evening unfold.

The covered patio and adjoining rooms create an easy flow from dinner to cocktails, conversation and golden-hour views - all within the warmth of the Lodge.

COVERED PATIO + MOUNTAIN VIEW ROOM

A warm, layered setting as the property transitions into evening.

THE EVENT LAWN

A North Georgia backdrop that needs no introduction.

Exchange vows, gather for cocktails or dine beneath the open sky with layers of mountain ridges stretching beyond the lawn.

The lawn gives each couple room to shape the day around the season, guest count and atmosphere they envision.

ONE SETTING. MANY MOMENTS.

Indoor-outdoor flow, beautifully balanced.
